GETMAN

Logging In

Go to this URL to access the Getman Digital Technical Library:
https://documoto.digabit.com/ui/?tk=GETMAN
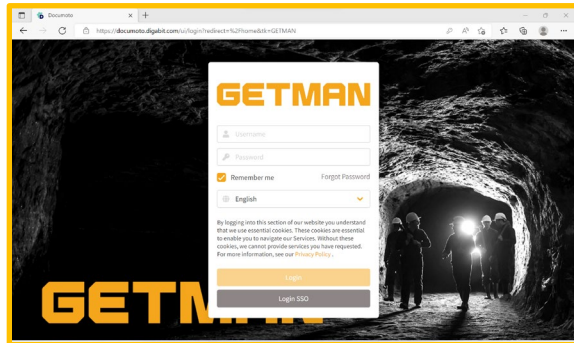

1. Enter the username we sent you in your registration email
2. Enter the password we provided in your registration email
3. Select the language you want to see the user-interface translated into
4. Click 'Login' to log in

Homepage

The Getman Digital Technical Library will open to the home page.

You can navigate from here by:

a. Clicking "Go to Search"
b. Searching in the top search bar
c. Clicking a "Browse" tile

You can also click GETMAN in the upper left to return to the home page.

The shopping 'Cart' and 'Account' management can be opened from the top right of the Getman Digital Technical Library at any time. Your password can be changed in 'Settings' under 'Account' in the upper right corner.

Search Results

Filters can be applied by clicking the 'Filters+' icon in Search. You can also select the type of content they want to see (such as parts, pages books or documents) and what categories of content they want to see by using the 'Type' and 'Category' dropdowns.

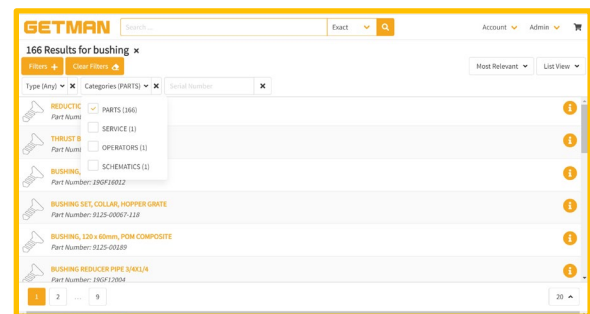

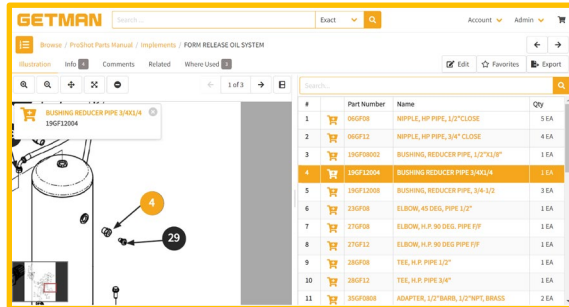

Content Viewers

Tabs on the top of content viewers enable you to access information, comments, and related resources to the content you are viewing.
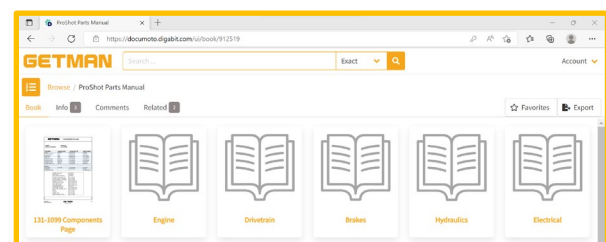

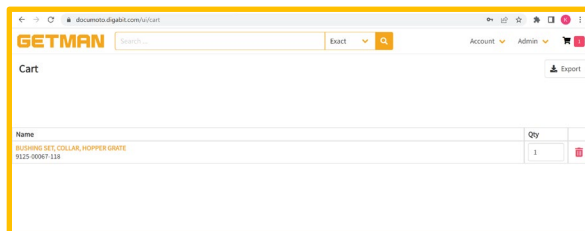

Creating a Parts List

Parts from interactive parts pages are added to the cart by clicking the cart icon on pages, or by clicking 'Add' from the part viewer or from the shopping cart and enter the quantity needed.

Parts that have been added to the cart can be exported as CSV or XLSX formats

Important Icons in the Getman Digital Technical Library

	More Information	Any of these icons indicate that there is more information available for a part. You can access this information by clicking on the icons or clicking on the part to open Part Info.

	Hotpoint Link	This icon indicates that a Hotpoint link is available for a part. You can access the Hotpoint link by clicking on the link in the Hotpoint Preview (at the upper left of the diagram).
	Table of Contents	This icon opens the table of contents for an interactive book in the Getman Digital Technical Library.
	Add to Cart	This icon enables you to add parts to the cart. The icon changes color to indicate an item has been added to the cart.
	Information	From search, you can preview content information before opening that content by selecting this icon.
	Bill of Material View	These icons enable you to change the view of the bill of material from horizontal to vertical or vice versa and is found above diagrams on pages.
	Diagram Viewing Icons	These three icons enable you to reset the diagram view to actual size, expand the diagram to your whole screen and hide interactive Hotpoints.
